In the last 25 Years, Pennsylvania's State Budget, Taxes and Debt have all gone through the roof. In 1982, PA's General Fund was \$ 7.6 billion. In 2008 it's over \$ 27 billion! The State income tax was 2.2%. Today it's 3.07%—up 40%!! Since 2003, State spending has increased over 2½ times the rate of inflation!!! During this time State Government Bond Debt has skyrocketed to \$7.5 billion. Two State Pension Funds will soon bankrupt us.

Our population has been stable, meaning that government keeps spending more and more of Your money. In 2006, an \$840 million State surplus was gobbled up by Harrisburg. In 2007, it was \$650 million not being returned to You, the Taxpayer. Harrisburg needs Conservative Citizens in The House of Representatives and Senate—the General Assembly.
